Company News

Statement for AGM on 21 October 2010

Strategic review

The Board of Yatra Capital Limited ("Yatra" or the "Company"), after taking advice from its financial adviser Rothschild, and its broker LCF Edmond de Rothschild Securities, has reviewed the current strategy of the Company, the lack of liquidity in its shares, and the significant discount that its shares trade at relative to the reported NAV. The Board is today outlining broad measures to respond to these issues with a view to improving shareholder value

Business Plan

The Company's current main objective alongside its ongoing work with the Manager to progress value creation at portfolio level, is that while the Company's shares trade at a significant discount to reported NAV and are not traded in meaningful volumes, K2, the fund through which the Company invests, should seek to achieve liquidity from its investments and distribute such proceeds to Yatra (net of fees, expenses and taxes). The Board is working with its Manager and advisers to further refine the Company's business plan in order to address this objective. However, the Board considers it important that any achievement of liquidity should be undertaken with consideration for the maximisation of returns to the shareholders and the future prospects of the Company.

Distribution Policy

It is the Board's further intention to return the proceeds from such realisations within K2 to Yatra shareholders, subject to working capital and other operational cash requirements as they become available to the Company.

Other measures to improve Shareholder value

The Board is also conscious that Yatra shares suffer from a lack of liquidity and is reviewing mechanisms to increase that liquidity, including a review of the location of listing for the Company's shares.

A further update will be made in terms of these initiatives when appropriate.
