Yatra Capital Limited

("Yatra Capital" or "the Company")

**Dealings in First Indian real estate Company to list on Euronext
commenced today**

Dealings in the shares of Yatra Capital Limited, a company established to invest in and profit from the rapidly growing Indian real estate market, commenced today (Wednesday 6 December 2006) on Euronext under the symbol YATRA. Yatra Capital will be both the first India focussed investment company and the first Jersey incorporated company to list on Euolist by Euronext Amsterdam N.V. The Company has raised €100 million which when leveraged will provide Yatra Capital with around €200 million of funds to invest.

Yatra Capital has been established to provide international investors with an opportunity to capitalise on the real estate market in India, where the directors believe there are significant opportunities arising from the Indian Government's recent liberalisation of the foreign direct investment guidelines, coupled with the rapid growth of the Indian economy. Yatra Capital will target capital growth for its investors in excess of 25% per annum through the ownership, development and sale of high quality residential, commercial and retail properties in India. Investments will be diversified across different asset classes and locations in India with a primary focus on tier II and tier III cities. The Company will also consider select strategic opportunities in tier I cities where the directors believe there is value to be gained.

The Company will be advised by Saffron Capital Advisors ("Saffron" or "the Advisor"), an asset management advisory firm dedicated to Indian real estate. Through its extensive network in India, Saffron has already established a pipeline of potential investments for the Company with a value of around €390 million and expects the Company to be fully invested in around 12-18 months.

SAFFRON

Saffron was established by Ajoy Veer Kapoor and Rohin Shah in May 2006. Both Ajoy and Rohin are also on the board of Yatra Capital. Between them, they have a combined experience of over 45 years in international real estate and finance and a

thorough knowledge of and extensive network of contacts amongst the key players in the Indian real estate market.

Ajoy is an entrepreneur and banker with a career spanning over 25 years, with global exposure to real estate investment, development and management. Ajoy's last two assignments were Global Head, Strategy & Implementation, Corporate Real Estate at HSBC in the UK, prior to which he was Regional Head, India, in charge of Corporate Real Estate & Strategic Sourcing as member of the India Management Committee of Standard Chartered Bank.

Rohin is a chartered surveyor and managing director of Meghraj Properties Limited in London, where he is currently responsible for a portfolio of UK commercial property with a value in the region of £750 million. He has been involved with the Indian property markets since 1992. In 1995, he established Trammell Crow Meghraj, (formerly Chesterton Meghraj), where he remains a shareholder and director. Trammell Crow Meghraj was one of India's first overseas property consultants, which now has over 850 staff spread across ten offices located in Delhi, Mumbai, Bangalore, Kolkata, Chennai, Hyderabad, Pune, Chandigarh, Kochi and Coimbatore.

Whilst Yatra Capital is the first investment company to be established by the Advisor, Saffron is also the investment advisor and manager to another India focussed real estate company, Eredene Capital PLC, which is listed on the AIM market of the London Stock Exchange.

THE BOARD

The Company has a strong board of non-executive directors, which is represented, by Sir Nigel Broomfield and well respected figures in the European property market including David Hunter and Malcolm King.

Sir Nigel Broomfield is a current non-executive director of the Smith's Group and Cable & Wireless (Jersey). Formerly he was HM Government's former Ambassador to Germany and represented the Foreign and Commonwealth Office in New Delhi. David Hunter is the former President of the British Property Federation and led the property industry delegation, which negotiated the introduction of REITs with the British Government. More recently he has been responsible for £6.5 billion of property development and investment in the UK and Europe with Arlington Property

investors. Malcolm King is the former senior partner and international chairman of King Sturge and is currently a non-executive of Redrow plc.

(Further details of their experience along with full biographies of the remainder of the Board are attached.)

Commenting on the Placing, David Hunter, non-executive director of Yatra Capital said : “To have raised €100 million from such a select group of blue chip investors is a strong indication of the strength and depth of the relevant experience of the Board, coupled to Saffron’s unquestionable expertise and credentials of operating in the Indian real estate market; the latter of which I believe are of huge benefit to the Company.”

Ajoy Veer Kapoor, director of Yatra Capital and managing director of Saffron added: “We are extremely excited that Yatra is the first India focussed real estate company to list on Euronext and is breaking new ground by also being the first Jersey registered company on the market.

“We believe the Indian real estate market represents an enormous opportunity for investors. However, the key ingredients to creating shareholder value is to have a deep-rooted knowledge of the local market with a substantial network of contacts on the ground and an absolute understanding of the complexities of this dynamic market. Through its management, Saffron has strengths in both these fields. “

Notes to Editors

Overview of the Company

The Indian economy has grown on average at over 6% per annum in the last few years. The impact of this economic growth on Indian real estate has been dramatic, with the sector expected to grow from US \$12bn today to over US \$40bn in the next five years.

The capital of the Company will be used to establish a seven year real estate opportunity fund to invest in and profit from the rapidly growing real estate sector in the buoyant Indian economy, and to take advantage of recent changes resulting from India's liberalisation programme which for the first time allows for direct foreign investment ("FDI") in the Indian property sector.

It is intended that the Company will be invested in various asset classes across the real estate sector – including residential, commercial, IT, retail, hospitality and healthcare, but with a focus on residential and integrated development projects falling within the current FDI guidelines in urban centres throughout India.

The aim will be for the Company to benefit its investors by making investments that present scope for value accretion, and by returning an IRR of at least 25%.

The Advisory Group and Investment Committee have significant experience in real estate development and investment, both internationally and within India. This experience, when applied to the opportunities in the market, should enable investors in the Company to achieve an exceptional investor return.

The total size of the Company is anticipated to be €100 million. External borrowing at investment level is likely to increase the total funds to be applied by the Company to around €200 million.

Investment Objective and Policies of the Company

The primary objective for the Company will be to achieve capital growth for its investors in excess of 25% per annum through the development, ownership and exploitation of high quality residential, commercial and retail properties in India. Investments will be diversified across different asset classes and locations within India, between shorter-term development and longer-term development and yield-based opportunities, with a blend of projects offering differing risk-reward relationships, and projects involving more active and more passive involvement.

Advisory Group

The Advisor and its management team combine real estate experience both within India and internationally, and a proven history of value creation. Excellent relationships have already been put in place with key stakeholders within the Indian real estate sector. The Advisor has access to a strong flow of Indian real estate investment opportunities with the potential to create significant returns for investors through its network of relationships in the sector, and has already identified a number of potential investment targets requiring funds in the region of €390 million.

Distributions, Dividend Policy and Exit

It is intended that the Company will be wound-up after seven years. Funds returned to the Company before then may be returned to shareholders by way of dividend or other capital distribution, or may be reinvested at the discretion of the Board. Shareholders may also achieve an "exit" through disposal of their shares via Eurolist by Euronext.

Fees and Expenses

The Advisory Group will be paid annual advisory fees of 2% of capital commitments made to K2 Property. The Advisor will also be entitled to a 20% share of all profits of the Company once investors have achieved their 11% IRR hurdle return on capital
